

1. **A competent and professional alternative** to buy/sell or hire/lease equipment. PGE boasts a pool of knowledge, experience and networks of experts to ensure quality services. Stake holders are therefore relieved of stress and distraction of having to complete the procurement/ sale on their own, so they can focus on their core business.
2. **Dealership in new and used equipment:** Through PGE manufacturers or other service providers can acquire equipment that meets their specific requirements. PGE offers a wider option of available equipment, and at more affordable cost. Clients may also find it cost-effective to hire required equipment, or to contract their manufacturing and testing.
3. **Equipment liquidation services:** You may trust us to successfully liquidate your assets, from single machine to entire plants. PGE also provides auction services. Targeted marketing campaigns within our

large and specialized customer base will bring together a far greater number of interested buyers than any traditional auction-house.

4. **Marketing services:** PGE will help equipment owners who wish to sell to maximize their Return on Investment (ROI). With a powerful portfolio (in numbers and caliber), we are better positioned to target and reach the most potential buyers. PGE shall activate marketing plans and strategies for every equipment available for sale.
